Political Brevities.

The Secretary estimates the expenditures for the fiscal year ending June 1880, to be \$250,000,000, though the War Department, in the event of an Indian war, will add many millions to this estimate. Last year the War Department asked for \$25,000,000 for unties, but its estimate this year is less than that amount, no more appropriations for bountles are required. the report shows that the annual interest on the public debt is, in round number \$140,000,000, and the estimate for the next fiscal year is but little in excess of that amount. The estimate
